Application System for International Students

Application Period:

Spring Admissions, August 1st - October 15th, 2026

The banner features a world map background. On the left, there are two circular logos: the top one is the University of Toronto crest, and the bottom one is the International Student Association logo. The text 'International Student' is in blue, and 'Spring Admissions' is in large red letters. Below this, it says 'August 1st - October 15th'. On the right, there is a yellow button that says 'Enroll Now >>>'. Below the text, there are four small photographs showing students in various settings: a group photo, a food display with a banner that says 'You are What You Eat', a group of students looking at a laptop, and a large group of students in a hall.

然後你會看到報名時間的公告，點選它。

And you will see the announcement about the application period. Click on it.

Application System – Filling in Information

A server error occurred in the '/' application.

Execution phase error

Description: An application error occurred on the server. The current custom error settings for this application are for security reasons, preventing others from remotely viewing detailed information about application errors. However, it can be viewed using a browser on the local server computer.

Details: To view detailed information about this specific error message on a remote computer, please create a <customErrors> tag in the "web.config" configuration file in the root directory of the current web application. Then set the "mode" attribute of the <customErrors> tag to "Off".

```
<!-- Web.Config 組態檔 -->

<configuration>
  <system.web>
    <customErrors mode="Off"/>
  </system.web>
</configuration>
```

Note: You can replace the error page you are currently seeing with a custom error page by modifying the "defaultRedirect" attribute of the application's <customErrors> configuration tag to point to the URL of a custom error page.

```
<!-- Web.Config 組態檔 -->

<configuration>
  <system.web>
    <customErrors mode="RemoteOnly" defaultRedirect="mycustompage.htm"/>
  </system.web>
</configuration>
```
